

DON'T BRING COVID-19 HOME

Practice 2 metre physical distancing between you and others, as much as possible

Wash your hands often and thoroughly with soap and water, then dry

Clean high touch surfaces and objects such as door handles, computers, phones, mouse, drawers, desk, keyboard at the end of each day with disinfectant

Don't use your hands where possible - push open doors with shoulder or feet and use hand gel afterwards

Consider bringing only essential items to work e.g. drivers licence, ID, personal medical supplies

Use a disinfectant that is anti-viral and follow instructions.
