Better health for the greater Wellington region

- Make a new bleach solution **daily** using a supermarket bleach (e.g. Janola) using either of the following formulas:
 - 1/4 cup of bleach in 10 litres of water, *or*
 - 2 teaspoons of bleach in 1 litre of water
 - To be effective it requires a contact time, so allow the diluted bleach solution to sit on surfaces as long as you can.
-
