Safety	About right
Reduce emissions	About right
Mode-share	About right

Highest priority

#6 Let's Get Wellington Moving

Why did you choose this project as priority #1?

RPH is supportive of providing faster public transportation services with bus corridors where buses pass frequently. Reducing travel time and improving reliability of buses will not only increase the number of people using public transportation, but also peoples' ability to move around the city and access to essential services.

Second highest priority

#28 Northern Connection cycleway

Why did you choose this project as priority #2?

Increasing healthy active transportation has a profound impact on the wellbeing and resilience of the population. Reducing risk of accidents while making it easier to choose a healthy mode of transport, especially along regionally significant routes in Wellington City will be especially beneficial in easing access to services while encouraging exercise.

Third highest priority

#18 Electric bus fleet 1

Why did you choose this project as priority #3?

Environmental health is directly associated with and impactful of human health. Prioritising the shift from buses that contribute to carbon emissions to electric buses is an important step that Wellington should take towards environmental sustainability.
